		2400	2750	3600	4800	6000	7200	8000
Production of precast concrete	m3/h.	30	35	45	60	80	90	100
Production of ready-mix concrete	m3/h.	50	60	75	90	100	130	150
Motor power	kW	50	57	75	97	119	145	150

## OPTIONS

Aggregate storage  
from 4 to 8  
compartments  
from 25 to 100 m³  
per compartment

Aggregate  
loading system

Aggregate  
discharge system

Cladding  
of mixer unit

Covering  
of mixer unit

Ice weigh  
hopper

Cleaning  
system  
for mixer

# MASTERMIX

## PROGRESS THROUGH INNOVATION

## MASTERMIX

### PROGRESS THROUGH INNOVATION

Easy transportation  
Designed for the most extreme conditions

## Jobsite

The compact design enables easy and quick implementation to cope with the widest range of needs.

## Precast

Flexible and fast to install fitting perfectly to your working environment and your production.

## Ready-mix

Optimum operation of high-volume and high-quality concrete.  
Easy maintenance.  
Optimum truck circulation.

# MASTERMIX

THE INNOVATIVE AND  
FUNCTIONAL PLANT  
TAKING CARE OF  
THE ENVIRONMENT AND  
YOUR SAFETY

## ERGONOMICS

Large platform for access  
around the mixer.  
Anti-skid aluminium tear plates  
easy to clean.

## ... AND SECURITY

ISO14122-3 standard platforms/  
stairs with secured railing.  
Anti-fall safety.  
Floor level access to main  
maintenance components.

## ENVIRONMENT

Galvanized water weigh hopper  
for clean or recycled water.  
Sealed cement weigh hopper  
with decompression vent hose.

## MODULARITY

4 to 8 compartments.  
Storage capacity of 60 to 400 m³.  
2 outlet gates or one large  
discharge gate or activator  
per compartment.  
Galvanized cement weigh  
hopper with space for up to  
5 screw conveyors.

## COMFORT

Easy access for cleaning/inspection.  
Prepared for automatic cleaning system.  
Bracket/beam to lift up spare/wear parts.  
Flexible and resistant chute.

## SPEED

Fast installation.  
Limited civil engineering.  
Prewired and factory tested.

## MOBILITY

Easy to dismantle and transport.  
Meets EU road standards.  
Rear axle and signal devices.

## PRODUCTIVITY

The control system optimizes the performance  
of the plant for all applications.

## ADD-ONS TO SIMPLIFY YOUR PRODUCTION

1000 kg  
bracket/beam

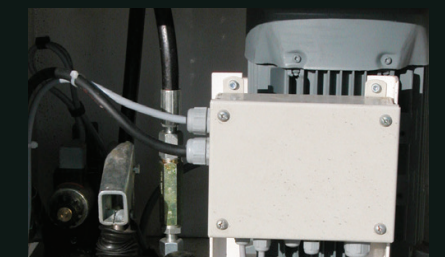

Tool set  
provided

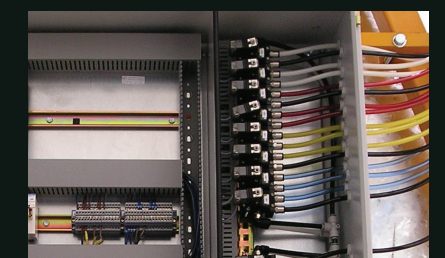

Cladding

Base cone  
section for  
complete  
discharge

Separate  
hydraulic  
power pack

Electro  
valve box
